Background and legislation

Background

The *Education and Care Services National Law Act 2010* (National Law) requires services to deliver an educational program (curriculum) that is based on an approved learning framework. In Victoria, approved learning frameworks for the early childhood sector are the *Early Years Learning Framework (Belonging, Being & Becoming)* (refer to *Sources*) and the *Victorian Early Years Learning and Development Framework* (refer to *Sources*). These documents are underpinned by practices and principles that encourage reflection and provide educators with a thorough understanding of the pedagogy of early childhood curriculum in a contemporary context.

Part 4.1 of the *Education and Care Services National Regulations 2011* (National Regulations) outlines the operational requirements for educational program and practice within services, including the requirements for documentation of assessments in relation to the educational program. There is no prescribed method in the National Law or National Regulations for documenting assessment of children's learning. Each service must determine a method that suits their individual circumstances. To meet the documentation requirements of the National Regulations, the assessment must include an analysis of children's learning. Collecting this information enables educators to plan effectively for each child's

learning and development. It can also be used by educators to stimulate reflection on their own values, beliefs, and teaching practices, and to communicate about children’s learning with children and their families.

The National Regulations require the appointment of an Educational Leader to lead the development and implementation of the educational program (or curriculum) at the service (Regulation 118). This person will have suitable qualifications and experience, as well as a thorough understanding of the *Early Years Learning Framework* and/or the *Victorian Early Years Learning and Development Framework*, enabling them to guide other educators in planning and reflection, and to mentor colleagues in implementation practices (*Guide to the Education and Care Services National Law and the Education and Care Services National Regulations*, p85 – refer to Sources).

The *National Quality Standard* is linked to the approved learning frameworks. Quality Area 1: Educational Program and Practice focuses on “enhancing children’s learning and development through the:

- pedagogical practices of educators and co-ordinators
- development of programs that promote children’s learning across five learning outcomes” (*Guide to the National Quality Standard* – refer to Sources).

The educational program must also be underpinned by the service’s philosophy.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Education and Care Services National Law Act 2010*: Sections 168, 301(3)(d), 323
- *Education and Care Services National Regulations 2011*: Regulations 73–76, 118, 148
- *National Quality Standard*, Quality Area 1: Educational Program and Practice
 - Standard 1.1: The educational program enhances each child’s learning and development
 - Standard 1.2: Educators facilitate and extend each child’s learning and development
